Subject: Sesko

Mark,

Does the city have an environmental compliance officer who could check to make sure there are no petroleum products or asbestos in the tanks on the Sesko property? As the intended use for the tanks is floatation for submarine retrieval, DNR does not believe there is any reason to think such contaminants would be on board. Nonetheless, if DNR can get some assurance that the tanks appear clean, it may make it easier to find a taker for scrapping the tanks.

Terry Pruitt
Assistant Attorney General
Natural Resources Division
(360) 586-0642
